Electrical Installation Level 2 Diploma

Location	Stretford Campus
Full/Part time	Full-Time
Department	Electrical Installation

Course Overview

The City and Guilds 2365-02 Level 2 course aims to give learners the basic underpinning knowledge and practical skills required for progression to the City and Guilds 2365-03 Level 3 Certificate in Electrical Installation qualification.

Please note that a key component of any full time programme is work experience, therefore we advise learners applying for the course to start sourcing out potential industry related opportunities, during their time at college.

(Important Note: Qualification aims are subject to change at the discretion of the Electrical Installation Team)

Course Requirements

5 GCSEs at grades 9 – 4 including maths and English, however entry will be at the discretion of the electrical installation team depending on practical competence.

Existing applicants must have completed the relevant vocational Level 1 qualification and GCSE requirements stated above.

Course Assessment

The completion of a variety of online multiple choice, written and practical assessments strategically planned during the academic year

Course Finance

The course fees for academic year 19/20 are £1680.00

Course Includes

Electrical Installation
