

## HNC Mechanical Engineering for England (HTQ)

Location	Stretford Campus
Course Type	University Level
Department	Engineering
Start Date	Monday 16th September 2024
Duration	Part-time, 1 Year
Time	09:00 - 17:00
Fee	£ 8000.00
Course Code	TFP-HM4H-1100

## Course Overview

---

Embark on a dynamic journey into the world of Mechanical Engineering on this HNC course, designed to equip you with the essential knowledge and practical skills required for a successful career in this field.

Our dedicated faculty, comprised of experienced professionals, will guide you through the latest industry trends, technological advancements, and sustainable practices. You will also develop essential skills in problem-solving, project management, and teamwork, all of which are highly valued by employers in the field.

Upon successful completion of the HNC program, you will have the option to progress to an HND or enter the workforce with the confidence and competence to contribute effectively to the engineering industry.

# Course Requirements

---

All applications will be considered on individual merit. However, offers will usually be based on:

- 1 BTEC Level 3 qualification in Engineering
- 2 GCE Advanced Level profile that demonstrates strong performance in a relevant subject or adequate performance in more than one GCE subject.
- 3 GCSE grades at A\* to C (or equivalent) and/or 9 to 4 (or equivalent) in subjects such as Mathematics and English
- 4 Other related Level 3 qualifications
- 5 Access to Higher Education Diploma from an approved further education institution
- 6 Relevant work experience, or an international equivalent to the above qualifications

## What You Will Learn

---

You will delve deep into the core principles of engineering, including specialisms such as thermodynamics, production engineering and mechanics. Hands-on laboratory sessions, workshops, and industry-relevant projects will enhance your practical expertise, allowing you to apply theoretical concepts to real-world scenarios. Successful completion of the course will enable you to perform key mechanical engineering tasks in the sector, understand processes and operations, and work effectively.

## Assessment

---

**Coursework and Assignments:** Coursework and assignments are common assessment tools. Students are given specific projects or tasks related to their coursework, and they are evaluated on their ability to apply theoretical knowledge to practical problems. **Practical Work:**

Practical laboratory sessions are a crucial part of an electrical engineering program. Students may be assessed on their ability to conduct experiments, analyse data, and draw conclusions from their findings.

**Reports and Technical Writing:** Students may be required to write technical reports based on their laboratory work or projects. These reports assess their ability to communicate technical information effectively.

**Presentations:** Students may be asked to give presentations on engineering topics, projects, or case studies. This assesses their communication and presentation skills, as well as their understanding of the subject matter.

## Progression

---

On successful completion you may progress to a HND at Level 5 and then to a top-up Level 6 on a related undergraduate programme such as:

BEng (Hons) Mechanical Engineering  
BEng (Hons) Mechanical Engineering and Management  
BEng (Hons) Mechanical and Production Engineering  
BEng (Hons) Mechanical and Manufacturing Engineering  
BSc (Hons) Mechanical Engineering  
BSc (Hons) Mechanical Engineering (Automation)

## Career Options

---

This HNC opens a wide array of rewarding career options in various sectors. Graduates of this program are equipped with a strong foundation in mechanical engineering principles and practical skills, making them valuable assets to industries that rely on innovation, design, and problem-solving. Here are some promising career paths:

Engineering Technician  
Mechanical Engineering Technician  
Engineering Manufacturing Technician  
Technician (Mechanical)  
Technician Mechanics

## Mandatory Units

---

At Level 4 you will study the following units:

Engineering Design  
Engineering Maths  
Managing a Professional Engineering Project  
Mechanical Principles  
Fluid Mechanics  
Fundamentals of Thermodynamics and Heat Engines  
Production Engineering for Manufacture  
Quality and Process Improvement

## Extra Costs Involved

---

No

## Exam Validation Body

---

Pearson Education Ltd.

# Exam Validation Body

---

Pearson Education Ltd.

## Hours Per Week

---

6 hours for part-time course or 12 hours for full-time course.

## How Long To Complete

---

Two years part-time with one full day attendance per week, or one year full-time with the equivalent of two full day attendance per week.

## Programme Structure

---

Each unit is worth 15 credits and over the course of the programme you will gain 120 credits.

## Contact Details

---
